Port Wine.
AND IRON BITTERS.

THESE RITTERS contain in thorough combination in the highly tonic properties of Port Wine and Iron in due proportions, and afford a convenient and pleasant medium for their exhibition. They also contain the tonic properties of several of the most powerful vegetable tonics known to Pharame utiests, rendaring them a most desirable and efficient remedy in Dyspopsia, Indigestion and General Dobinity. They are posultarly beneficial in the treatment of Female Diseases arising from Suppression, &c., &c. The sale of this article proves the virtues of it. We sell in Abordeen upwards of 1,000 bottles yearly—double the amount of any other tonic that is offered for sale in this place.

COM TOS PATENT FIRE ARMS MANUFACTURING CO. Col. Sam. Colt,

Pistols, Rifles, Carbines and Shot Guns. GREAT REDUCTION IN PRICES. nple Reasons for preferring Colt's Arms t all others.

1. They have been thoroughly tested by all classes of men in every country, and from the first rifle fired in Florida, during the Indian war in 1837, to the present hour they have always responded to the touch of their owners in the time of danger.

2. They have a force and accuracy which have no parallels in the history of fire-arms.

3. They do not endanger your eyasight and brain, as do the arms with patent primers, which fly like shells into many nices.

do the arms with patent primers, which fly like shells into many pieces.

4. They do not stick fast, refusing either to open or shut without the sid of an axe when heated, as do the guns which open like molasses gates or nut crackers.

5. They leave no burning paper in the barrel after a discharge, to blow the next cartridge into your face, as do the guns which open from behind.

6. They are simple in construction, and easily taken care of, as any ranger or cavalry soldier will tell you.—Treat thom well, and they will treat your ensmise badly.

7. They are made of the best steel that can be procured for money, and have the strength to resist the explosive force of gunpowder, while the mongrel initutions and cheap arms are clumsly made of cast iron or inferior materials, and are more dangerous to their owners than they are to all others. than they are to all others.

8. They are well finished, and as cheap as a good arm can be made by the aid of modern machinery and skillful

labor.

9. They are always worth what they cost—in the Far West much more, almost a legal tender! If you buy anything cheaper, your life, or that of your companion may balance the difference in cost.

10. If you buy a Colt's Rifle or Pistol, you feel certain

anything cheaper, your no. of that of your companion may balance the difference in cost.

10. If you buy a Colt's Rife or Pistol, you feel certain that you have one true friend, with six hearts in his boty, and who can always be relied on.

11. They can be carried loaded and capped, with entire safety. In rain, or when waiding or awimming rivers, they remain water-proof.

12. They have no knife edge to cut off the end of the catridge and the powder, cutting off more and more at every discharge, as the barrel gets heated, and finald getting so duil that they will not cut at all. What ofy lady will lend her seissors to cut upper with? Ask any ranger who has tried the cutting slide guns, what he thinks of them.

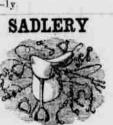

13. Colt's arms have been adopted for the service of the Uited States by the army board at West Point, in 1858 and for many years previously, as superior to all others. See the printed reports, which fill volumes.

13. Colt's weapons are old friends to many thousands who will read this sheet. See Colt's new rifles before you buy any other, and then decide which will afford surest protection to your family, your life and your property.

Sold by all respectable dealers throughout the world. The following descriptions of arms are now made by the Company.
